The interviewer asks the interviewee a series of specific questions, to which a fixed range of answers are possible 'ticking a box'. Interviewing is the most widely used form of data collection in qualitative research Creswell, NewYork: Bloomsbury Academic; Have you ever been involved in online interviewing? When the interviewees and respondents are face-to-face, there is a way to adapt the questions if this is not understood. More complete answers can be obtained if there is doubt on both sides or a particular information is detected that is remarkable. The skills and knowledge of the researcher should match the purpose of the interview. If you are investigating a narrow but deep subject you may not need to interview interviewing: Reflections of two PhD researchers.
