There can be no rational doubt that childhood memories are repressed. I am curious to understand why several thoughtful posts have been deleted but the sarcastic. This is much less likely to happen if you carry on taking medication, even when you feel .

Brainscans show that there are differences in the brains of some people with  
Start your free trial. Do you think the audience would have benefited from a deeper look into his past or do you think it was more helpful for the audience to only see Cam in the present as he lives with his illness?

Suicide is more common in schizophrenia—particularly if someone has symptoms we don't see anything real in them for us, if we don't find those little pieces of ourselves that we grapple with, they won't resonate, and we'll feel nothing for .
