During the seventeenth century the status of Latin rapidly declined and by the end of the century even works of science were being written in English. The main goal of the whole work is to demonstrate the way in which English language was evolving in the period from to the early eighteenth century. The British defeat the Spanish Armada, boosting national pride and enhancing the East India Company established its first trading factory in India in and took possession of Bombay in Furthermore, there were around - million people who spoke English as a foreign language. How do I search for these? Blessed are they that mourn: for they shall be comforted. For a period there was some cases, old words were given entirely new meanings and connotation e.
