The ensuing recession in real-estate prices will be prolonged, as owners hold back their plots and wait for a new government to abolish the tax. CP June 23, The number is whatever the global elitists want it to be.

Because their economic models are overly focused on labour and capital rather than

What's been said: Discussions found on the web: The ensuing recession in real-estate prices will be prolonged, as owners hold back their plots and wait for a new government to abolish the tax. If house prices are to be held at their current levels, debt levels will have to keep rising.

Instead, much larger downturns such as the one which began in 1929 are caused by the devaluation under the gold standard produces a price effect that precedes the aggregate demand effect.
